⊗ Non-magnetic

Our Microblading Pigment Collection is

True to Color!

Easy to use:

- Creamy texture
- Won't dry in pigment ring
- Stays put on the tip of the blade
- Does not drip out of pigment ring
- Heals true to color

Mix to your liking:

- Can be mixed with our modifier pigments
- Yellow pigment helps to lighten brow pigments or neutralize violet toned eyebrows
- Yellow pigment can be mixed with Black Onyx to create an olive tone pigment to fix red and pink eyebrows
- Orange Pigment warms up brow pigments and corrects gray or blueish eyebrows

Vibrant colors:

- The Microblading Pigment Collection ensures that your client's results will stand out on any skin tone
- When mixed with our pigment thinner or thickener, the pigment will not lose the concentration of color or quality
