Our PMU Pigment Collection is

True To Color!

Easy to use:

- Liquid consistency
- Easily picked up by the cartridge
- Cuts down treatment time
- Easy to implant into the skin

Mix to your liking:

- Our pigments are already well modified
- The Yellow pigment helps to lighten brow pigments or neutralize violet toned eyebrows
- Yellow pigment can be mixed with Black Coffee to create an olive tone pigment to fix red and pink eyebrows
- The Orange pigment warms up brow pigments and corrects gray or blueish eyebrows

Super Pigmented:

- The PMU Pigment Collection has a high pigment concentration ensuring that your client's results will stand out on any skin tone
- When mixed with our pigment thinner or thickener, the pigment will not lose the concentration of color or quality
